SEO PROVEN METHODS

5 PHASE ORGANIC SEO

1. SITE ASSESSMENT

- We will work to understand **your business**, identify its market, and find the competition.
- We will select **keywords** that are meant to drive relevant traffic to your site.
 - We will find potential challenges to the **marketing** performance of your site.
- **90%** of a campaign's success relies on the proper **selection of keywords.**

2. CAMPAIGN ROADMAP

- Based on your industry, competition and the inherent *characteristics of your site*, we will create a strategy meant to match or beat the competition applying your website's structure, code, and digital footprint distribution called the *Campaign Roadmap*
- We *requisition contributors* to your project such as SEO's, Writers, Analysts, Webmasters and in the most extreme cases, seasoned experts with over a decade's worth of successful web experience. Organize activities that are meant to drive success to you in the shortest time possible.
- We report the work to you in *real time* and in some cases, require collaboration in order to achieve the best results for your campaign.
- We drive as many *strengths* to your website as we can, as soon as we can.

3. ON-PAGE SEO

- We identify the technical elements of your site that can be improved to drive **better traffic performance**.
- We match the **search phrases** to the pages on your site and evaluate if your website sends the correct **semantic signals** to Search Engines regarding their **Value Proposition**, product or service.
- We create algorithmically **appealing content** while attempting to match your marketing language in order to penetrate search filters and reach your target audience.
 - **70%** of ranking success in small markets is attributed to **On-Page** factors.
